How to charge the hearing aid

1. When the sound of the hearing aid is very small and the hearing aid does not work, the hearing aid might have low battery, please charge the hearing aid in time.
2. Turn off the hearing aid when charging, and insert one end of the DC 5V/50mA~1A charger into the hearing aid.
3. Plug the charger into power outlet. The LED light will turn green when charging, the LED light will go out when full of charge.
4. The new hearing aid should be charged for 6 hours for the first few times you use, for the second time it's better to charge after running out of the battery, so necessary after three consecutive cycles, the battery is easy to achieve the best condition.

How to charge the hearing aid

5. Built in 50mAh lithium battery, it can work continuously for more than 80 hours after it is full charged. (Caution: Please be sure to make our matching battery and charger, don't disassemble and refit battery)

Specification

Item No.	G-18
Charger	DC 5V/50mA~1A
Battery	Lithium battery
Size	27×18×19mm
Weight	About 4.0g
Max sound output	118±4dB
Sound gain	30±5dB
Total harmonic wave distortion	≤5%
Frequency range	400Hz~4500Hz
Input noise	≤28dB
Voltage	D.C. 3.7V
Current	≤2mA

Things to Remember (Cautions)

1. If you feel whistling sound, please make sure if you put the earplug tightly, or if you use an appropriate size earplug.
2. Please don't use the hearing aid at a high volume for a long time, it will damage your hearing.
3. Please maintain the product all the time in order to avoid the earplug and microphone opening being blocked by foreign objects.
4. Please don't use when showering, swimming, raining or wet environment, please don't expose the hearing aid under sunshine, get close to a stove or other heat sources.
5. Please protect the hearing aid carefully and avoid dropping it on the floor.
6. Keep the hearing aid away from the children.
7. The apparatus shall not be exposed to dripping or splashing.

Things to Remember (Cautions)

8. The plug of adaptor is used as the disconnect device, the disconnect device shall remain readily operable.
9. Attention should be drawn to the environmental aspects of battery disposal.
10. A warning that batteries (battery pack or batteries installed) shall not be exposed to excessive heat such as sunshine, fire or the like.

What to do when you wear the Hearing aid device?

1. Adjust volume to the minimum before wearing.
2. Choose an earplug of slightly bigger size to avoid whistling.
3. Increase volume gradually to avoid sudden increase in sound.
4. If you hear a howling, check the ear (silica gel) is appropriate and whether the size of plug is tight, the appropriate choice of earplugs and plugged, make sure no air leakage.
5. Keep the ear plug clean.
6. Remove the battery if you don't use it for long time.
